

# Dr. Serum-SilkFibroin

SUPPORT HEALTHY BALANCE

SUPPLEMENT

**Fat-absorbing substance**  
**[Serum-SilkFibroin]**

Peach flavor  
 With thirty 10g packs  
 Price: 12,600yen (including tax)

Wouldn't you like to follow a healthy diet to purge your body of all unnecessary fat and enjoy the feeling of true beauty?

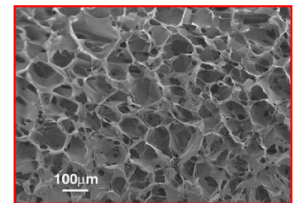

## What is SilkFibroin?

Silk from silkworms is protein with a 70% fibroin constituent. At the nano-level, SilkFibroin shows a complex microstructure and its multiple outstanding functions have made it the subject of research as a substance that promotes health and beauty.

### Characteristics

Silk is a protein and is one of the constituents of the human structure. This is why there is no risk of side effects or damage to human body. Fatty tissue in the body is absorbed and excreted without being digested. The diet imposes no restrictions, allowing you to enjoy three meals a day.

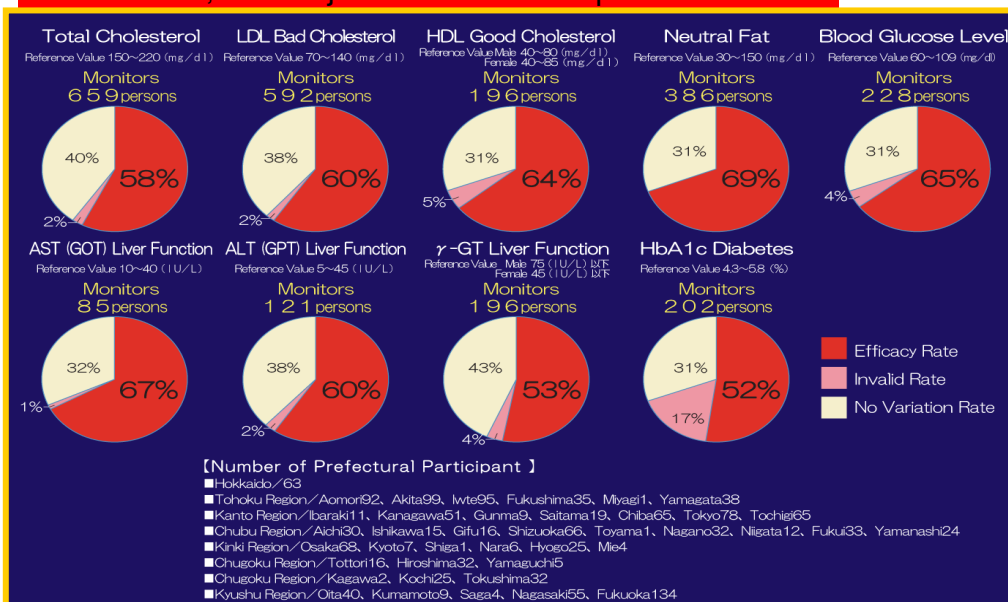

Photograph taken using an electron microscope.

## Fear of obesity!!

**Obesity – Visceral fat type (metabolic syndrome) / Subcutaneous fat type**

Although obesity itself is not an illness, it can be the cause of a great many health problems. This doesn't mean that you can relax if you are slim. Visceral fat, also referred to as hidden fat, can lead to serious illness if not checked in time. It is important to develop a routine of regular care.

Data from 1,253 subjects tested over a period of one month

Verification of the effects on metabolic syndrome from data taken after ingesting SilkFibroin!!  
 Report from the manufacture.

**Get fixed with daily intake of Serum-SilkFibroin!!**

**Before starting weight loss diets...**

First, break down subcutaneous fat by taking advantage of Serum-SilkFibroin that absorbs and removes neutral fat and accumulated fatty tissue around internal organs.

**Dr.Serum-Silk Fibroin** Japan Process Patent: No. 4074923

**DECREASE IN BLOOD GLUCOSE LEVEL BY DRINKING**

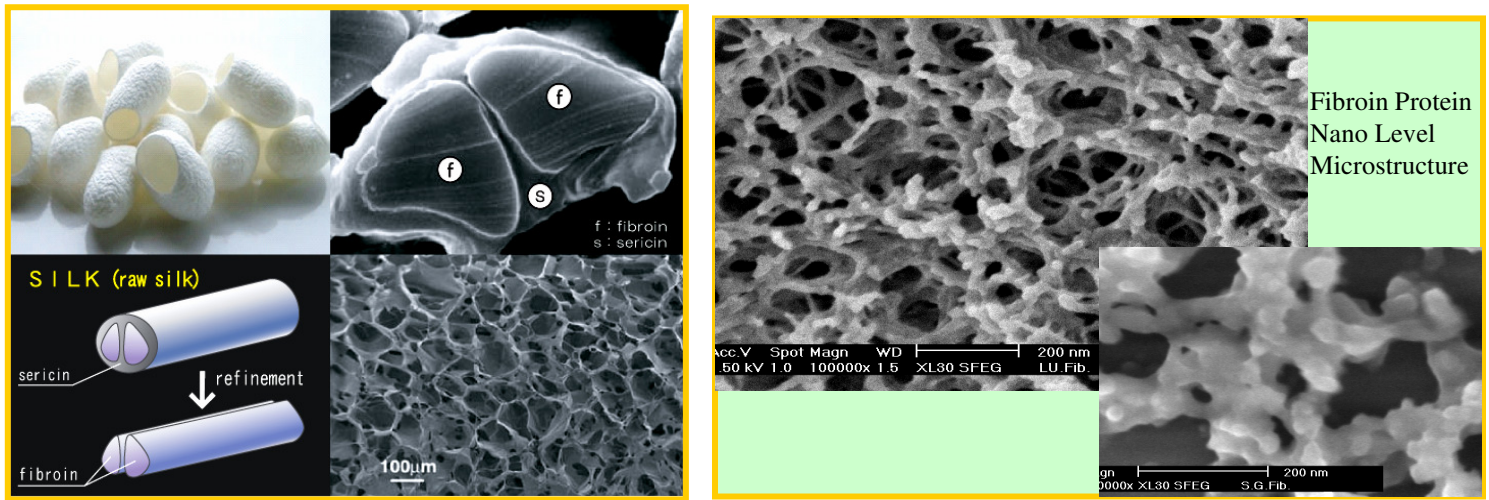

Molecular Weight from 10,000 to 30,000 by Ultra-filtration Extract

Dr. Hiroiku Ueno of Asahi Iou Clinic

Dr. Takayuki Nagashima of Department of Agriculture, Tokyo University of Agriculture  
Ikuya Yoshikawa of Doctor Serum Co., Ltd.

Analysis and Consideration of Data:

Dr. Toru Abo of International Infection Medical Science Course,  
Niigata University Graduate School of Medical and Dental Sciences

**Characteristics and Manufacturing of Silk Fibroin Protein Substance**

**Biological Affinity**

**Antibacterial**

**UV Cut**

**Form Change**

**Tasteless and Odorless**

**Absorptive Property**
